

Lead Services Directory

February 2012

**Colorado Department
of Public Health
and Environment**

Please Note:

This listing may not include all companies related to lead services.

This listing does not constitute endorsement by the Colorado Department of Public Health and Environment.

This document is updated quarterly. For the most recent version, please check the following web site: <http://www.cdphe.state.co.us/ap/leadservicesdirect.html>

	Appendix A: Abbreviations Used in This Directory	28
	Appendix B: Lead-Related Questions to Ask Environmental Consultants and Contractors	29

I. Introduction

Childhood lead poisoning is a serious problem throughout the United States. In 1991, the Centers for Disease Control and Prevention (CDC) changed their definition of elevated blood lead levels from 25 micrograms per deciliter of whole blood to 10 micrograms per deciliter. Because the definition changed, many more children were considered to have elevated blood lead levels. In addition, the National Health and Nutrition Examination Survey, NHANES, (1988-1991) found approximately three percent of the nation's children had lead levels of 10 micrograms/deciliter or higher. In the state of Colorado, surveillance data from January 1, 1994 to June 1, 1995 shows 1.9% of children tested had levels \geq 10 micrograms/deciliter. But, a 1995 survey done by the Colorado Department of Public Health and Environment illustrated areas within Colorado may have higher rates of childhood blood lead levels where the majority of the housing was built before 1950.

There are numerous exposure sources of lead in the environment, but children are at greatest risk for poisoning in their own homes. Some common exposure sources in the home include, but are not limited to, lead based paint, plumbing with lead pipes, contaminated soil and dust, and lead hazards that are caused by home remodeling, hobbies, or improvement projects.

In 1978 the Consumer Product Safety Commission banned the production of paint that included more than 0.06% lead by weight. Although this was a major breakthrough in lowering lead levels in children, approximately three quarters of the nation's housing still have some lead based paint hazard. These hazards not only include chipping paint itself, but dust and soil that has been contaminated by lead based paint particles.

The Lead Services Directory has been compiled as a resource for people concerned about lead poisoning. It includes listings of private and public agencies offering lead poisoning prevention services. Some of the agencies analyze blood lead samples. Others perform consultation services, environmental sampling or abatement work. State and Local Health Departments are listed to help with other questions and concerns.

The following resources were used to write this introduction:

1. Centers for Disease Control and Prevention, Preventing Lead Poisoning in Young Children, 1991.
2. Colorado Department of Public Health and Environment, Childhood Lead Poisoning in Colorado, 1995.
3. Pirkle, James, et. al., "The Decline in Blood Lead Levels in the United States.", JAMA, July 1994, Vol. 272.
4. Forensic Analytical, Lead Regulatory Levels, June 1995
5. Environmental Protection Agency (EPA) and the Department of Housing and Urban Development (HUD), Fact Sheet: Disclosure of Lead Based Paint Hazards in Housing, March 1996.

II. Lead Regulatory Levels

Environmental and Paint Regulations

Source of Lead Hazard	Regulatory Level	Source of Regulation
Residential Interior and Exterior Paint Paint on furniture and toys	$\leq 0.06\%$ Total Weight	Consumer Product Safety Commission CPSC, 1977
Air	30 micrograms/meter ³ (action level) 50 micrograms/meter ³ (PEL)	OSHA, 1993
Drinking Water	< 0.015 milligrams/liter or 15 ppb	EPA, 1989
Bare Soil, Play Area	≥ 400 parts /million (ppm)	40 CFR 745.65
Bare Soil, Average of Samples from the balance of the yard	> 1,200 parts/million (ppm)	40 CFR 745.65

Lead Clearance Levels Following Abatement

Source of Lead Dust Hazard	Clearance Level	Regulation
Floors	≤ 40 micrograms/ft ²	Colorado AQCC Regulation No. 19 and EPA
Window Sill / Interior	≤ 250 micrograms/ft ²	Colorado AQCC Regulation No. 19 and EPA
Window Troughs	≤ 400 micrograms/ft ²	Colorado AQCC Regulation No. 19 and EPA
Window Sills / Exterior	≤ 500 micrograms/ft ²	Colorado AQCC Regulation No. 19
Exterior Surfaces (e.g. patios, porches, sidewalks)	≤ 800 micrograms/ft ²	Colorado AQCC Regulation No. 19
Soil / Non Play Areas	≤ 1200 micrograms/gram	Colorado AQCC Regulation No. 19 and EPA
Soil / Play Area	≤ 400 micrograms/gram	Colorado AQCC Regulation No. 19 and EPA

Where clearance levels differ, the most stringent clearance levels must be used.

III. Laboratories Providing Blood Lead Analysis

All clinical laboratories must satisfy the requirements of the Clinical Laboratory Improvement Act by participating in nationally recognized proficiency testing programs such as those sponsored by the College of American Pathologists (CAP), the Centers for Disease Control, and the New York State Department of Health. A laboratory may also be certified by the Occupational Safety and Health Administration (OSHA) if the laboratory participates in a nationally recognized proficiency testing program and has had satisfactory blood lead testing in the prior 12 month period. For more information on OSHA certification for blood lead testing, see the Federal Register (29) 1910.1025 or call OSHA directly at (303) 844-5285 or (801) 487-0680.

- 1) **American Medical Laboratories**
Participates in CDC/Wisconsin Proficiency, is accredited by CAP. Meets requirements of CLIA and OSHA. Contact laboratory for prices and sample requirements.
Chantilly, VA (800) 336-3718
- 2) **ARUP**
Participates in the CDC, New York, Pennsylvania Proficiency Testing Programs, is certified by OSHA, and accredited by CAP. The laboratory meets the requirements of CLIA. Contact the laboratory for prices and sample requirements.
Salt Lake City, UT (800) 242-2787
- 3) **Lab Corp (formerly National Health Laboratories)**
Sends samples for analysis to National Reference Laboratory (Nashville, Tenn.), which participates in the CDC Proficiency Testing Program, is certified by OSHA, and is accredited by CAP. The laboratory meets the requirements of CLIA. Call for prices and sample requirements. Drawing stations are available along the Front Range.
Englewood, CO (303) 792-2600 or (800) 793-7247
- 4) **Mayo Medical Laboratories**
Participates in the CAP, CDC/Wisconsin, Pennsylvania Proficiency Testing Programs, Wisconsin Proficiency Testing Programs, and is accredited by CAP. The laboratory meets the requirements of CLIA and OSHA. Contact the laboratory for prices and sample requirements.
Rochester, MN (800) 533-1710
- 5) **Med Tox Laboratories (formerly Lead Tech Corp.)**
Participates in the CAP, CDC/Wisconsin, and Pennsylvania Proficiency Testing Programs. Meets the requirements of CLIA and is certified by OSHA. Call for prices and sample requirements.
St. Paul, MN (800) 832-3244

- 6) **Penrose/St. Francis Toxicology Department**
Participates in the CDC Proficiency Testing Program and accredited by CAP. The laboratory meets the requirements of CLIA. Contact the laboratory for prices and sample requirements. Has an outpatient drawing station available.
Colorado Springs, CO (719) 776-5010

- 7) **Quest Diagnostic Laboratory, formerly MetPath/MetWest Lab Inc.**
Locally, sends samples for analysis to Quest Green Meadows in Ft. Collins, CO. Participates in the CDC Proficiency Testing Program, is certified by OSHA, and is accredited by CAP. The laboratory meets the requirements of CLIA. Has drawing stations throughout Colorado.
Denver, CO (800) 765-2655
San Juan Capistrano, CA (714) 728-4000
Irving, TX

- 8) **Smith Kline Beecham Clinical Labs**
Participates in the CDC Proficiency Testing Program and is certified by OSHA and accredited by CAP. The laboratory meets the requirements of CLIA. Contact the laboratory for prices and sample requirements.
Van Nuys, CA (800) 729-9787 or (303) 220-8285 in Denver

- 9) **Specialty Laboratories, Inc**
Participates in the New York and Quebec Proficiency Testing Program. Is accredited by CAP. The laboratory meets the requirements of CLIA. Contact the laboratory for prices and sample requirements.
Santa Monica, CA (800) 421-4449

- 10) **Tamarac Medical**
Participates in the CDC/Wisconsin Proficiency Testing Program and is accredited by CAP. The laboratory meets the requirements of CLIA and OSHA. Contact the laboratory for prices and sample requirements.
Denver, CO (800) 842-7069 or (303) 794-1083 in Denver

IV. Do-it-yourself Home Test Kits

*These are qualitative kits that provide a convenient and inexpensive method of **screening** for lead on hard surfaces. The Food and Drug Administration has not reviewed and approved all of the kits. For your safety, carefully follow the directions provided with each kit.*

- 1) **Carolina Environment Inc / Lifelines**
“Know Lead” lead detection kits indicate results at testing site. This is a qualitative test that identifies the presence of lead with a simple color change. For use on hard painted surfaces such as walls, furniture, pottery, pipes and toys.
(800) 448-5323 or (704) 660-7098

- 2) **HybriVet Systems**
“Lead Check Swabs” for testing hard surfaces such as walls, doorjambs, crystal and toys. Indicates results at testing site. Sold through such outlets as Ace Hardware, True Value, Home Depot and HomeBase or by phone through HybriVet. For large orders, contact HybriVet directly.
Framingham, Mass Information: (800) 262-5323.

- 3) **Tamarac Medical**
Has a test kit available for checking water samples. Call the laboratory for more information.
(800) 842-7069 or (303) 794-1083 in Denver

V. Environmental Consultants in Colorado with Portable X-ray Fluorescence Analyzers

Portable x-ray fluorescence analyzers are used to test for lead. They should be used only by trained technicians.

Please note: The state of Colorado requires the certification of individuals engaged in lead-based paint activities involving child-occupied facilities and target housing.

- 1) **ATC Environmental Inc.**
Denver (303) 799-6100
- 2) **Accurate Lead Testing**
Fort Collins (970) 224-4923
- 3) **Black Bear Inspections, Inc.**
Denver (303) 759-5722
- 4) **Boulder Environmental Management, Inc.**
Boulder (303) 382-1175
- 5) **Century Environmental Hygiene, LLC**
Fort Collins (970) 266-8000
- 6) **Chemistry and Industrial Hygiene Inc.**
Wheat Ridge (303) 420-8242
- 7) **Cheyenne Mountain Services Co.**
Colorado Springs (800) 356-6333
- 8) **CMTS Environmental**
Denver (303) 831-7905
- 9) **Commercial Testing and Engineering Co.**
Instrumental Analysis Division
Denver (303) 373-4772
- 10) **Deluxe Environmental, Inc.**
Littleton (303) 794-8700

- 11) **DS Consulting, Inc.**
Aspen (970) 274-8859
Morrison (720) 201-6611
Vail (970) 476-4182
- 12) **Empirical Environmental, LLC.**
Colorado Springs (719) 749-2068
- 13) **Enviro-Chem Analytical Inc.**
Grand Junction (970) 242-6154
- 14) **Gobbell Hays Partners**
Denver (303) 574-0082
- 15) **Herron Enterprises**
Denver (303) 763-9639
- 16) **HWS Consulting Group, Inc.**
Denver (303) 771-6868
- 17) **IHI Environmental**
Wheat Ridge (303) 980-8749
- 18) **MT2, LLC**
Arvada (303) 456-6977
- 19) **Professional Service Industries, Inc.**
Thornton (303) 424-5578
- 20) **Risk Removal, Inc.**
Denver (303) 296-9471
Fort Collins (970) 221-9121
- 21) **Terracon**
Colorado Springs (719) 597-2116
- 22) **Weecycle Environmental Consulting, Inc.**
Boulder (303) 413-0452

VI. Trace Metal Laboratories in Colorado Certified by the State Health Department to Analyze Drinking Water Under the Safe Drinking Water Act

Under the Safe Drinking Water Act, the regional office of the Environmental Protection Agency has delegated responsibility for laboratory certifications to the Colorado Department of Public Health and Environment's laboratory. Certification includes on-site inspections and annual evaluations of laboratory analysis using performance evaluation samples provided by the EPA. The Following laboratories have been certified by CDPHE.

- 1) **ACZ Laboratories Inc.**
Steamboat Springs (970) 879-6590
- 2) **Analytica Solutions, Inc./Analytica Environmental Laboratories, Inc.**
Thornton (303) 469-8868
- 3) **Colorado Analytical Laboratory**
Brighton (303) 659-2313
- 4) **CDPHE – Lowry Campus**
Denver (303) 692-3048
- 5) **Evergreen Analytical, Inc**
Wheat Ridge (303) 425-6021
- 6) **City of Fort Collins**
Fort Collins (970) 221-6691
- 7) **Grand Junction Laboratories**
Grand Junction (970) 242-7618
- 8) **Green Analytical Labs**
Durango (970) 247-4220
- 9) **Huffman Laboratories**
Golden (303) 278-4455
- 10) **City of Northglenn**
Northglenn (303) 450-4070
- 11) **Sangre De Cristo Laboratory**
Alamosa (719) 589-1024

- 12) **SGS North America, Inc.**
Denver (303)373-4772
- 13) **Stewart Environmental Consultants**
Fort Collins (970) 226-5500
- 14) **TestAmerica – Denver**
Arvada (303) 736-0142
- 15) **Weld County Health Department - Laboratory**
Greeley (970) 304-6415

For a complete list, reference <http://www.cdphe.state.co.us/lr/Certification/SDWLIST.pdf>

VII. Laboratories Analyzing Lead in Air Samples

Several certification programs exist for environmental lead testing of the air including the EPA Contract Laboratory Program (CLP). Depending on the work, the company may have to be certified by other groups. For example, the Army Corps of Engineers has a certification program for companies contracted to work at its facilities.

- 1) **Analytica Environmental Laboratories, Inc.**
Thornton, CO (303) 469-8868
- 2) **ALS Laboratory Group, Inc.**
Salt Lake City, UT (801) 266-7700 or (800) 356-9135
- 3) **Accutest Mountain States**
Wheat Ridge, CO (303) 425-6021
- 4) **Reservoirs Environmental Services, Inc.**
Denver, CO (303) 964-1986

VIII. Colorado Certified Lead Abatement Firms

The state of Colorado does not endorse any company or make any claims to the competence, experience, or field training of the companies listed. All companies performing lead-based paint abatement in the state of Colorado must be certified by the Colorado Department of Public Health and Environment.

Company	Address	City	ST	Zip	Work Phone
Custom Environmental Services, Inc.	8041 W. I-70 Frontage Rd. Unit 11	Arvada	CO	80002	(303) 423-9949
Josephine Construction	6249 S Yampa Ct.	Aurora	CO	80016	(303) 944-1206
Ash & White Construction Company	18 S. Wilcox St., Ste 100	Castle Rock	CO	80104	(303) 688-6924
MFH Environmental Corp.	2509 Platte Place	Colorado Springs	CO	80909	(719) 473-1441
Daro Tech, Ltd.	1301 S. 8th St. Suite 340E	Colorado Springs	CO	80905	(719) 597-7040
Earth Services and Abatement, Inc.	6700 E. 50th Ave.	Commerce City	CO	80022	(303) 991-1280
Environmental Demolition, Inc.	321 W. 45th Ave.	Denver	CO	80216	(303) 216-9001
Unleaded, Inc.	8760 E. Bellewood Pl.	Denver	CO	80237	(720) 318-8805
Lead Paint Solutions, LLC	2551 W. 52nd Ave.	Denver	CO	80221	(303) 480-0101
Colorado Abatement Professionals, Inc.	1635 Albion St	Denver	CO	80220	(303) 921-3161

Professional Service Industries, Inc.	1070 W. 124th Avenue, Ste 800	Westminster	CO	80234	(303) 424-5578

IX. Colorado Certified Lead Evaluation Firms (continued)

Company	Address	City	ST	Zip	Work Phone
Chemistry & Industrial Hygiene	10201 W. 43rd Ave. #201	Wheat Ridge	CO	80033	(303) 420-8242
IHI Environmental	3000 Youngfield St., #105	Wheat Ridge	CO	80215	(303) 980-8749
Terracon Consultants, Inc.	10625 W. I-70 Frontage Rd. N. Suite 3	Wheat Ridge	CO	80033	(303) 423-3300

X. Colorado Certified Training Providers

The following training programs have received accreditation from the Air Pollution Control Division of the Colorado Department of Public Health and Environment for the disciplines listed.

1) Misers Occupational Safety Training, Inc.:

1825 W. Baker Avenue
Englewood, CO 80110
Contact: Eric Peters
(303) 922-0398
FAX (303) 922-0124

- Worker
- Supervisor
- Inspector
- Risk Assessor
- Refreshers for all above courses

2) Gobbell Hays Partners, Inc.:

10500 E. 54th Avenue, Suite H
Denver, CO 80239
Contact: Wade Anderson
(303) 574-0082
FAX (303) 574-0061

- Inspector
- Risk Assessor
- Refreshers for all above courses

3) Safe Objectives, Inc.

2808 Janitell Rd.
Colorado Springs, CO 80906
Contact: Teresa J. Holbert
(719) 391-7233
FAX (719) 218-5140

- Inspector
- Risk Assessor

4) Colorado Hazard Control

2727 W. 92nd Ave. Ste. 10
Federal Heights, CO 80260
Contact: Danaya Benedetto
(303) 410-4941

- Worker
- Supervisor
- Inspector
- Risk Assessor
- Refreshers for all above courses

5) **The Center to Protect Worker's Rights:**

8484 Georgia Ave., Suite 1000

Silver Springs, MD 20910

Contact: Alexandra Szymczak

(301) 578-8500 ext. 138

FAX (301) 578-4190

- Worker

XI. Environmental Insurance Providers/Brokers

This listing provided January 1997.

Freberg and Company, Inc

Joe Weber, AAI

Insures environmental consultants, inspectors, and home inspectors.

Denver (303) 571-4235

Fax (303) 571-0936

XII. Colorado Labs Proficient in Environmental Lead Proficiency Analytical Testing (ELPAT)

The Environmental Lead Proficiency Analytical Testing Program evaluates laboratories performing lead analysis of paint chips, soil, and dust wipes. The ELPAT Program is a cooperative effort of the AIHA, the CDC, NIOSH and EPA, Office of Pollution Prevention and Toxics. Under a Title X legislative directive, the EPA OPPT is establishing a National Lead Laboratory Accreditation Program (NLLAP) to recognize laboratories that can analyze lead in paint chip, soil and dust matrices associated with the abatement and control of lead based paint contaminated housing. The ELPAT Program is the accepted proficiency testing program for NLLAP recognition. For more information about the labs that are made proficient or for a more current list, please call the National Lead Clearing House at (800)-424-LEAD.

City	Laboratory Name	Phone	Matrices Proficient
Littleton	Johns Manville	(303) 978-3213	Paint, Soil, and Dust
Denver	Reservoirs Environmental Services, Inc.	(303) 964-1986	Paint, Soil, and Dust

For a complete list, reference <http://www.epa.gov/lead/pubs/nllap.htm>

Appendix A: Abbreviations Used in This Directory

Here is a list of agencies, designations and abbreviations that appear in this directory:

Abbreviation	Agencies	Designations
AIHA	American Industrial Hygiene Association	Offers two programs for lead and lead laboratories, the NLLAP and the ELPAT
CDC	Centers for Disease Control and Prevention	Located in Atlanta, GA, CDC administers a proficiency program for blood lead testing
CLIA	Clinical Laboratory Improvement Act	Administered through the US Health Care Financing Administration
CAP	College of American Pathologists	Inspects and certifies laboratories
CDPHE	Colorado Department of Public Health and Environment	Certifies acceptable laboratories under a Safe Drinking Water Program administered by the Environmental Protection Agency. Its radioactive materials division licenses consultants with x-ray fluorescence analyzers
NLLAP	Environmental Lead Laboratory Program	A program in which laboratories are judged under six criteria and accredited by the AIHA.
ELPAT	Environmental Lead Proficiency Analytical Testing Program	A new program under the AIHA in cooperation with NIOSH that will be required for laboratories seeking accreditation as lead analysis laboratories.
EPA	Environmental Protection Agency	
FDA	Food and Drug Administration	Runs the Blood Product Establishment
NIOSH	National Institute of Occupational Safety and Health	Operates the Laboratory Proficiency Analytical Testing Program
OSHA	Occupational Safety and Health Administration	Program which is concerned with the safety and health of workers

Appendix B: Lead-Related Questions to Ask Environmental Consultants and Contractors

1. What training do you have in lead investigation and/or abatement? Where did you get this training? What did this training cover? May I have a copy of your certificate(s)?
2. What kind of experience do you have in the field? (Get a listing of prior projects.)
3. Can I get a list of references? (This should include past clients for whom they have worked, with the clients' phone numbers.)
4. How many people do you employ? May I see some evidence of their training and experience in the field of lead-based paint?
5. What kind of equipment do you have? What kind of personal protective equipment do you use? What precautions will you take to insure that the occupants and the building are protected from contamination?
6. What methods will you use to do this job? Are these in compliance with the Colorado Air Quality Control Commission Regulation No. 19?
7. Are you certified by the state of Colorado to perform lead-based paint abatement?

The State of Colorado does not endorse any company, nor does it make any claims in regard to their competence, experience or training in the field.

If the requirements of Regulation No. 19 do not apply, and you intend to do this work yourself, we strongly recommend obtaining a copy of the HUD *Guidelines*, and to use the equipment and methods listed therein. A copy of this document may be obtained from HUD User at 1-800-245-2691. When checking with suppliers/rental agencies, be sure to use the proper equipment (e.g., vacuums equipped with HEPA (High Efficiency Particulate Air) filters). Possible sources of this equipment are *Reis Environmental (303-329-9016)*, *Roe Fire and Safety (303-433-8901)*, *Oilind Safety (303-399-3919)* or look in the Yellow Pages under *Safety Equipment and Supplies*.
