

## COLORADO STATE-RECOGNIZED EMS EDUCATION PROGRAMS

### How to Find a Program:

1. Look for the city or town that is near where you want to attend a class. Check surrounding areas to find all potential sites.
2. Identify the level and type of training you are interested in attending.
- 3a. If you are seeking an **Initial** or **First-time** EMS Provider training program, look for locations listed as a **Center** (Ctr). Centers conduct education programs for initial or first-time EMS Providers. Upon successful completion of an initial EMS Provider program, you will be eligible to take the National Registry examination and apply for Colorado State certification.
- 3b. If you are seeking an **Refresher** or **Continuing Education** program, look for locations listed as a **Group** (Grp). Groups conduct Refresher and Continuing Education programs for EMS Providers to complete the requirements to renew their Colorado State certification through National Registry recertification or continuing education hours. Visit [www.coems.info](http://www.coems.info) for more information on continuing education requirements.
- 3c. If you are seeking **IV Authorization** courses for EMT-level EMS Providers, look for locations listed as IV. IV Authorization requires certification as an EMT and is included in the scope of practice for AEMT and Paramedic-level EMS Providers.

*The Colorado Department of Public Health and Environment EMTS Section does not maintain a schedule of training courses.  
Please contact the individual program for specific course information.*
