¹ Classified according to the *Standard Industrial Classification Manual, 1987*

² Includes fatalities to workers employed by governmental organizations regardless of industry.

NOTE: Totals for major categories may include subcategories not shown separately. Percentages may not add to totals because of rounding. There were less than 5 fatalities for which there was insufficient information to determine a specific industry classification, though a

distinction between private and government was made for each.

Dashes indicate no data reported or data that do not meet publication criteria.

n.e.c. means "not elsewhere classified."
