

PHYSICIAN UPDATE:

1. Physician Status:

The Medical Marijuana Registry can only accept recommendations from physicians in good standing. The physician must have an active and unrestricted license to practice medicine in the State of Colorado. **If this is not the case, the application will be rejected.**

To check on the status of your physician, you can use the following Department of Regulatory Agencies' website:

<https://www.doradls.state.co.us/alison.php>

You can search by physician's name or license number. Check the third column titled "License Status"

The only License Status accepted by the Medical Marijuana Registry is "Active" – any further limitation such as "Active with Restrictions" or "Active with Conditions" will not be accepted.

The License Status of the recommending physician must be "Active" at the time of signing the physician certification.

2. DEA License:

Due to law change in SB-109, the Medical Marijuana Registry must have a current, valid DEA license from each active, recommending physician in order to process their patients' medicinal marijuana application. **If this is not the case, the application will be rejected.**

A physician need only have the valid DEA License on file with the Medical Marijuana Registry, and need not re-supply the license for each applicant.

Upon the expiration of a physician's DEA License, the Medical Marijuana Registry will then need a copy of the updated, valid DEA License in order to accept applications from physicians.

Physicians may send their DEA licenses by either fax or mail:

FAX*: 303-758-5182

*Please enlarge the license by 200% when faxing so that the DEA License is legible

MAIL: CDPHE
 MMR
 C/O Rosa
 4300 Cherry Creek Dr S
 Denver, CO 80246

3. Rejected Applications:

Rejected applications will be returned to the patient; however, the application fee is non-refundable. Patients will be given 60 days to return a corrected application to be processed without any further application fees. If a patient fails to return a corrected application within 60 days, any later filed application must contain a new application fee.
