Elbert County Births and Deaths 2007

Selected birth characteristics: Elbert County residents, 2007	2
Selected birth characteristics by age group of mother: Elbert County residents, 2007	3
Selected birth characteristics by race/ethnicity of mother: Elbert County residents, 2007	4
Live births and fertility rates: Elbert County residents, 2007	5
Vital statistics summary: Elbert County residents, 1997, 2003-2007	6
Deaths from selected causes by race/ethnicity: Elbert County residents, 2007	8
Deaths and age-specific death rates: Elbert County residents, 2007	9
Deaths and age-specific death rates from selected causes: Elbert County residents, 2007	10
Deaths, crude death rates and age-adjusted death rates from selected causes: Elbert County residents, 2007	11
Notes Regarding Colorado's Revised Certificate of Live Birth.....	12

Selected birth characteristics: Elbert County residents, 2007

Characteristic	Number	Percent
Total Live Births	171	100.0
Age of Mother		
10-17	*	*
18-19	5	2.9
20-29	67	39.2
30+	98	57.3
Low Weight Births (<2,500 Grams)	16	9.4
Very Low Weight Births (<1,500 Grams)	3	1.8
Prenatal Care Later than 1st Trimester/No Care	31	18.7
No Prenatal Care	*	*
Preterm Births (<37 Weeks)	16	9.4
Education of Mother <High School Diploma/GED	8	4.7
Live Births to Unmarried Women	22	12.9
Smoking During Pregnancy	17	9.9

"Education of Mother," "Births to Unmarried Women," and "Smoking During Pregnancy" are among items collected in 2007, using the revised birth certificate, that are not directly comparable to data collected before 2007. See notes page at end of report for details of these revised data items.

** indicates one or two events in the category.*

Sums may not add to total due to cases with age of mother unknown.

Percentages are of total births, excluding cases with specific characteristics unknown.

See technical notes at www.cdphe.state.co.us/hs for definitions of data items.

** indicates one or two events in the category.*

Rates are deaths per 100,000 population.

Crude death rates are calculated without age-adjustment.

Age-adjusted rates are adjusted to the 2000 U.S. standard population using the direct method applied to 10-year age groups.

Age-adjusted rates provide a better basis for comparison among different geographical areas or time periods.

Notes Regarding Colorado's Revised Certificate of Live Birth

These tables contain Colorado birth data that were collected using the 1989 Revision of the U.S. Standard Certificate of Live Birth (unrevised) and the 2003 Revision of the U.S. Standard Certificate of Live Birth (revised)^{1,2,3}. Colorado's birth registration system used the unrevised certificate for births through calendar year 2006; while births in 2007 through the present were registered using the revised certificate. Among the differences in the revised birth certificate are changes to the following data items:

- Mother's and father's race, captures multiple race identification instead of single race identification
- Mother's and father's education, captures highest degree attained instead of total years of education
- Mother's marital status at time of birth, captures never married, married, widowed, separated, and divorced instead of just married or unmarried
- Cigarette smoking before and during pregnancy, captures levels of smoking in each trimester instead of just smoking any time during pregnancy

And the addition of the following data items:

- Method of delivery includes fetal presentation and trial of labor prior to cesarean delivery
- Pre-pregnancy weight, weight at delivery and height, used to calculate Body Mass Index
- Congenital anomalies, certain conditions have been added or removed
- Fertility therapy
- Did mother get WIC food for herself during this pregnancy
- Infections during pregnancy
- Maternal morbidity
- Breast feeding
- Principal source of payment for the delivery

Data items noted above that were collected using both the unrevised certificate and the revised certificate are not directly comparable. Analyses of birth data for time periods that include both revised and unrevised data should be performed with caution.

To facilitate analyses of births by race, the multiple race identification in revised certificates has been bridged back to a single race using a system developed by the National Center for Health Statistics at the Centers for Disease Control and Prevention⁴. *Please note*, however, that there has been an increase in the number of births reported with "other" or "unknown" maternal and paternal race and/or Hispanic ethnicity in 2007 compared to previous years. This is likely attributable to the change to the revised certificate.

The Health Statistics Section at the Colorado Department of Public Health and Environment is available to assist with analyses of these data, as well as to answer questions one might have regarding the revised certificate and the affected data items. For further information or assistance, please contact the Health Statistics Section at **(303) 692-2160** or by e-mail at health.statistics@state.co.us.
