

Public Health Improvement Plan Update

January 8, 2010

Greetings Public Health Partners!

We are pleased to introduce the [2009 Colorado's Public Health Improvement Plan \(COPHIP\)](#). Please click link to download. This statewide plan was authored by a range of public health professionals and advocates from local and state agencies, academic institutions, community-based organizations, and local board of health members.

As this living plan evolves over the next five years, we will continue to update you on progress. Over the next month, a new COPHIP feature will be added on our websites to illustrate activities associated with the plan. The Office of Planning and Partnerships will also have print copies of the plan available soon for distribution and it is available on our websites listed below.

On behalf of The Public Health Act Advisory Group and the Office of Planning and Partnerships thanks to all of you who helped create Colorado's Public Health Improvement Plan and for your continued support!
