

Stroke Rehabilitation Project

The **NeuroRehabilitation Research Laboratory** at Colorado State University is currently seeking individuals for a stroke rehabilitation research project. This project examines the effectiveness of a combined program of non-invasive brain stimulation and intensive movement therapy for the stroke-affected arm and hand.

We are seeking individuals to participate who have had a STROKE and have...

- Difficulty using the stroke-affected arm
- Fair endurance (4-6 hours of activity while sitting per day)

If you are interested in participating,
please contact Matt Malcolm, Ph.D., OTR:
